My Fred!
Sandra Larimer

ALBANY PTAS are planning another summer series of movies for children plus a "spook series" for kids from seventh grade and up.

DR. FRED DOXSEE, a dentist, 901 Stannage, has three-year-old twin daughters. One of the girls, Julie, will have open heart surgery on May 13. Ten or 12 units of blood will be needed. So far, two donors have been found. Anyone willing to donate for Julie may call Fred at 525-9882 for more details.

TERRY JARAMILLO wants to know if there has been a change in fees for the snow trip to Soda Springs this Saturday. It is \$8 for members and \$9 for guests. Originally it was announced as being \$1 over in each category.

Air Force Night For Legion

In the past, Albany post 292, American Legion, has had Navy Night, Army Night and Marine Night when the veterans of these branches of the armed forces took over to run the post's activities.

Now the Air Force demands quality time. In keeping with the demands of the Air Force veterans, the post set aside Friday evening, April 18, for the high flyers to do their stuff.

They will be at the hangar, the Albany Veterans' Memorial building at 6:30 p.m. with a bombastic happy hour in the post's "Albany Play Boy Club," after which the chefs from Spenger's will call all to chow in the auditorium to be followed by a professional stage show.

Chief Les Jackson from Spenger's will supervise the galley. According to LeRoy Holland, the sergeant in charge of the "Play Boy Clubroom," there will be music and song to bring the Air Force Night to a happy landing. This Air Force Night, says Al (Hap) Willis, is for male members of Albany post and invited Legionnaires of the American Legion Tenth District.

In keeping with the Albany post's desire to maintain its standing as the second largest post in Alameda County membership, Chairman Keith Truax extends invitations to non-affiliated eligible veterans to turn out Air Force night and sign up to become a part of the American Legion. Membership of the post is now 116 and Truax desires to have 450 on the roll before May 6.

John batted over .400 in the tournament and played well defensively. John ran the bases aggressively and scored two crucial runs on squeeze plays. Hustle and determination characterize John's play. Born in Colorado and reared in Oregon, the Dean has an AB degree from University of Oregon. She has done graduate work at University of Guadalajara, Mexico, and University of California. After-School Recreation programs were launched this week at Marin, Cornell and Vista schools, according to E. J. Rooney, Superintendent of the Park and Recreation department.

He said playground supervision will be provided from 3 to 5 p.m. Monday through Friday and Saturdays from 10 to 5. The Saturday supervision will include Feeny Field, also from 10 to 5.

Albany City Council allocated half the cost of the program

at its meeting April 1. On April 8, the Board of Education pledged \$1,250 plus a percentage of the administration costs. Rooney had submitted an interim program at a cost of \$4,030.

Both the Council and Board of Education have referred to budget sessions a proposal for a full-scale program at an estimated cost of \$14,000. It was submitted by Rooney and Chairman William Culley of the Park and Recreation commission.

Announcing the first car of the '70s at 1960 prices.

FORD MAVERICK \$1995*

(You don't have to read it all-but it's nice to know it's all there.)

Most new cars look like other cars. But when the word gets out that something really different is on the way, rumors run wild. Few cars have caused as much talk as Maverick. Ford's new entry in the small car field rivals the economy imports in price . . . but tops them in power, performance, passenger room and luggage capacity. We've been bombarded with questions about Maverick. Now, for the first time, here are the answers.

Q. Why did you build the Maverick?

A. We think of Maverick as another one of Ford Motor Company's answers to the gold drain. Now Americans who want small car economy don't have to send their U.S. dollars overseas.

Q. Why do you call it Maverick?

A. You know what a maverick is. A maverick breaks the rules. A maverick is different. Maverick plugs the big gap between the compacts and the imports. It has a wheelbase eight inches shorter than a '69 Falcon, eight and one-half inches longer than a VW 1500. Nothing else like it.

Q. Why did you make it this size?

A. Maverick pinches pennies, not people. We gave Maverick more leg room. More shoulder room. More luggage room. Good example: the front seat of a Maverick offers you nine inches more shoulder room than the front seat of the leading economy import and its trunk can handle all the luggage for a family of four, including a set of golf clubs.

Q. What do I get for the price?

A. You get your money's worth. A complete, built-for-Americans kind of car. Room. Hot styling. Color-keyed interiors. Even the heater is included. Some economy car interiors are about as luxurious as a park bench. Not Maverick's. You get plush seats. Cloth and vinyl upholstery with unique tartan plaid cloth inserts. You also get safety features like smart pull-out door handles. Strong safety door locks. Two-speed electric wipers. Safety belts. Head restraints. Plus conveniences like armrests, coat hooks, lighted heater controls . . . important little things that add so much to your driving comfort.

Q. What about options?

A. You can get 'em if you want 'em. You can order integral air conditioning. (It's built in, not hung on.) Other options include 3-speed automatic or low-cost semiautomatic transmission, and a hefty 200 CID Six. But lots of people won't put an extra cent into this

car. Because it's all there. A complete car all ready to drive home.

Q. What kind of gas mileage can I get?

A. That depends on you as well as the car. You can get as much as 25 or 26 miles per gallon—if you have an educated toe and the right road conditions. If you have a lead foot, or do a lot of city driving, you will get a lot less. In tests by professional drivers at our tracks, where we do our best to duplicate actual driving conditions, Maverick averaged 22.5 mpg.

Q. What kind of power does Maverick have?

A. Maverick's Six lets loose 105 galloping horses. That's 52 more than you get in the 4-cylinder VW 1500. Maverick can cover 417 feet in ten seconds from a standing start. That means you can get up to highway speed in a hurry. When you enter a 70 mph turnpike, you won't feel like a retired bookkeeper thrust into the middle of a pro football game.

Q. If it has an eight inch longer wheelbase than the leading import, does it still handle and park easily?

A. Maverick can U-turn in a tighter circle (35.6 feet) than the leading economy import (36.0 feet). Maverick can slant through traffic like a halfback. It can turn on a dime and give you nine cents change. If you've been driving any other American car, you'll find Maverick's neat size adds up to 5½ feet to any parking space.

Q. Can Detroit really build a small economy car that's tough and long lasting?

A. It's not easy, but we did it. Maverick's unitized body construction makes it light, strong and durable. It's welded like a battleship. Rustproofing compound goes into deep crevices that never see the light of day. Then all that strength is covered with four coats of paint for lasting beauty. Result: one tough little car that's put together to stay together. (The service schedule in the Maverick owner's manual goes up to 108,000 miles or nine years; that ought to tell you something about its rugged durability.)

Q. How about parts and service?

A. Maverick is designed to be unusually easy to service. You're dealing with made-in-America parts and 6,000 easy-to-find Ford Dealers. Fast repairs and easy replacements mean extra savings in both time and money.

Q. Is Maverick really easier and less expensive to maintain than an economy import?

A. Definitely. Maverick oil changes come only every 6,000 miles and chassis lubrication once every

36,000 miles. The leading economy import recommends oil changes every 3,000 miles (twice as often as Maverick) and chassis lubrication every 6,000 miles (six times as often as Maverick). Those are just a few examples of the many ways Maverick lessens inconvenience and lowers operating cost.

Q. Can I do my own maintenance work?

A. Yes, if you have an average amount of mechanical ability. The Maverick owner's manual contains 24 pages of detailed diagrams and easy-to-follow instructions for routine maintenance jobs you can do yourself, if you wish. You'll find it easy to change spark plugs, replace ignition points . . . plus many other do-it-yourself repairs and replacements.

Q. Can a small car be safe? And how safe is safe?

A. This small car incorporates the latest advances in engineering. Maverick's brakes are as big as a standard compact's—designed to stop cars weighing hundreds of pounds more. Maverick gives you weight . . . power . . . stability. Designed for American driving conditions.

Q. How does Maverick ride?

A. Here's where Maverick's longer, wider stance really pays off. You get a smoother, quieter ride. Maverick's light, strong, unitized body helps eliminate squeaks and rattles. Special insulation blocks out road noise. The people who brought you a Ford that was quieter than a Rolls-Royce now bring you a small car that doesn't sound like a power mower.

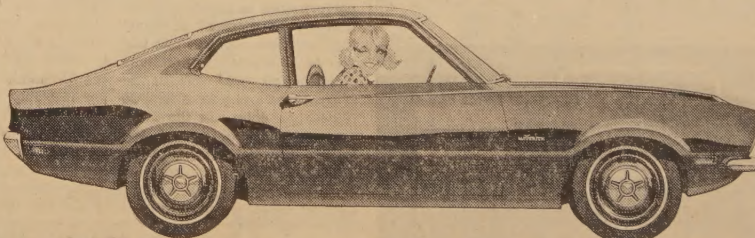

Q. Is there an advantage in the fact that Maverick is really a 1970 car?

A. Slower depreciation is one money-in-the-pocket advantage. Maverick's 1970 model designation means it keeps its trade-in value higher, longer. (Maverick is built to be a good investment from the minute you buy it to the minute you sell it.)

Better come take a look at this one. You'll find it where the action is . . . right in there with other great Ford values like specially equipped Ford Galaxie 500's . . . Fairlanses . . . Mustangs and Falcons.

You'll find them at your Ford Dealer's . . . the place you've got to go to see what's going on.

For an authentic 1/25 scale model of the new Ford Maverick, send \$1 to Maverick, P.O. Box 5397, Dept. N-50, Detroit, Michigan 48211. (Offer ends July 31, 1969.)

High School Diploma, Badge for Employment

In the past few years, the high school diploma has become the badge for employment in the San Francisco Bay Area. Almost every employer will ask the question: "Do you have a high school diploma?" If the answer is "No," the interview frequently ends with no further immediate prospect of getting the job.

Motorcycle, Car Accident Here

A collision between a motorcycle and car at 5:11 p.m. April 8 attracted a large crowd at the Key Route Blvd., Solano intersection.

The new motorcycle, driven by Catherine Hirtzel of Berkeley with Freda Benzies of Sausalito as passenger, hit the front left fender of a late model car driven by Frank Bray of Richmond.

Bray had stopped his car when he saw the motorcycle. Miss Hirtzel apparently panicked and attempted to stop, but the cycle fishtailed into the car. She was thrown to the pavement and taken by police ambulance to Herrick hospital for treatment of a possible broken leg.

Miss Hirtzel was cited for failure to have a driver's license.

Golden Anniversary

Mr. and Mrs. Jake Nora

Jake and Annette Nora of 516 Cornell, who have lived in Albany since 1923, were honored at a surprise reception at Albany Masonic temple in observance of their 50th wedding anniversary.

They were married March 14, 1919, at St. John's Episcopal church, Eighth and Grove, Oakland. Their party was held on March 16, a day after Nora was dismissed from the hospital.

A yellow and white color scheme was carried out in decorations. Mrs. Nora wore a pink gown of raw silk with matching shoes. She was presented with a corsage and Jake received a boutonniere. About 75 guests attended.

Hosts and hostesses were Mr. and Mrs. Robert Nora of 841 Cerrito, their son and daughter-in-law, and Mr. and Mrs. Norm (Willie) Buechel, 25 San Carlos, El Cerrito, their son-in-law and daughter, who planned a sit-down dinner. The honor guests received many beautiful gifts.

Among those attending were Jake's sister, Mary Ruffino of Sonora; another sister, Catherine Stoven and family from Dixon, and Grandma Stoven, 93, from Stockton.

Born in Illinois, Jake came to Angel's Camp with his family as a boy. In 1924, he was first manager of Albany Merchants' baseball team, which helped in getting the first bond issue passed to build Herbert Hoover Junior High school in Albany. He also managed the Folger Lumber company softball championship team of Berkeley with the late Louis Nora. At 73, he is still employed at Truitt and White Lumber company of Berkeley. He has been in the lumber business more than 50 years.

His wife, 66, is a native of San Francisco. In addition to their children, Robert Nora and Betty Buechel, they have three grandchildren, Bob Nora, Jr., and Susan and Cheryl Buechel.

Mr. Valentine died April 10 following an attack at his home. He was pronounced dead on arrival at Herrick hospital.

Dr. Fred Stripp and Fortitude lodge 624, F&AM, of Oakland, officiated at services at Ellis-Olson mortuary chapel, which was filled with friends and family members.

In addition to his wife, Lillian L. at the family home, he is survived by the following sons and daughters: George Valentine of Longview, Wash.; Dorothy Fuller, San Pablo; Mary Berg, Richmond; James W. Valentine, Albany; Vern Valentine, Rodeo; Alma McCartney, Concord; stepchildren, John C. Riley of Dixon, Bernice Thomason of Vacaville and Evelyn Bair of Albany, 29 grandchildren and 27 great-grandchildren.

Golf Association Signs 52 at First Meeting

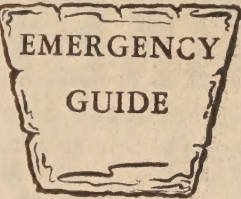

The Albany Men's Golf association signed up 52 prospective members at its first membership meeting April 7, according to President Ernie Machado.

Charter membership in the group will close May 10, which is the deadline for paying entry fee and first year's dues. Total cost is \$20 and may be mailed to Albany P.O. Box 6205.

No applications will be accepted after May 10, Machado said.

The first tournament is scheduled for Franklin Canyon Golf course June 8, beginning at 10:30 a.m.

SENIOR CITIZENS

846 Masonic Ave.

By Minnie Ingraham

A sad note must creep in... we have lost another fine member, James Valentine, husband of our vice president, Lillian. I have known Jim for many years and it was heartbreaking to all of us to see him falling in these last months. We shall miss him, and our heartfelt sympathy goes to our dear Lillian.

There is quite a stir among State agencies who oversee the welfare of senior citizens in California, and the topic of most importance appears to be housing. Our state develops seniors like

The Center has decided to make a little bread (that's soul talk for money, brother) and we plan a day-long auction Saturday, June 7. There will probably be a light luncheon available (no cover charge) and we hope to see all our friends among those present, to view the treasures. If you have anything you don't want and would like to see someone else get (stuck) with it, bring it in.
